

Premier Energy Distribution announces that the tender for the acquisition of electricity is in progress

Taking into consideration the recent news in the press regarding the new electricity purchase price, Premier Energy Distribution informs that the tender for the purchase of electricity has not been completed, the company being in the process of analyzing the offers.

The meeting of the Committee for the reception, opening and validation of tender, which took place on March 22, was attended by 2 pre-qualified suppliers: ЗАО "Молдавская ГРЭС" and "DE Trading" LLC. (Donbassenergo).

The companies Energocom SA, D.Trading "LLC (DTEK) and Navitas Energy SRL did not present any offer.

The distribution operator will inform all interested parties about the results of the auction through a press release that will be published on the website.
